

# Risk assessment

Assessment date: April 2020

Name of Assessor: David Mills

Assessment No:

## Risk assessment for: Clay-based activities (making dinosaurs, Stone Age necklaces, canopic jars)

Hazard	Risk	Risk group	Control measures (Describe the existing workplace precautions and risk control systems in place)	Likelihood	Severity	Risk level	Are existing controls adequate? Yes / No*
Clay dust	Eye irritation, ingestion	Children and adults	Keep the clay and the clay residue moist and prevent it turning to dust. Provide overalls for the children to wear and ask them to roll up their sleeves. After the activity, particularly if the children are using the same room to eat, wipe the table clean, remove the overalls and encourage the children to wash their hands.	2	2	4	Yes
Who else could be at risk?			Control measures	Likelihood	Severity	Risk level	Are existing controls adequate? Yes / No*
Any adults who undertake the same activity		As above					

\* If the response is no, complete Risk Assessment Action Plan (Form RA 2)
